

RADCON[®] FORMULA#7

"THE WORLD'S MOST ENVIRONMENTALLY FRIENDLY CONCRETE WATERPROOFING"

- » Approved by Ecospecifier
- » Achieves rating points for LEED, BCA, BREEAM and PEARLS etc
- » Unlimited life span - remains in the concrete forever and never needs to be recycled
- » Does not generate massive landfill like traditional membranes
- » No VOC's
- » Non-Toxic
- » Any surface residual product will bio-degrade by UV degradation post application
- » Suitable for use in potable water
- » Increases durability of concrete
- » Potential to indirectly lower Greenhouse Gases in buildings (Source: Ecospecifier)
